

# WEEKLY FAMILY UPDATE

Grand Traverse Pavilions update for Residents and Responsible parties during COVID-19

Vol. 32, ISSUE 1

POSTED: 11.4.2022

Grand Traverse Pavilions saw eight new cases of COVID in the staff this week, and one new case in the resident population in the nursing home and four residents in the cottages.

We ask that you help reduce the risk of spreading the virus by continuing to wear a well-fitting mask, by encouraging the visiting resident to wear a well-fitting mask, by maintaining social distancing and by using good hand hygiene during all visitations. Please notify Pavilions Nursing staff if you develop symptoms or become positive for COVID within 14 days of your visit.

As stated previously staff are now authorized to wear the blue procedure masks when caring for Residents. NIOSH-approved N95 masks or higher are required during the care of a resident with COVID-19 or the care of a resident on Droplet Precautions. Screening and testing remain the same for both staff and visitors.

Information on the Bivalent booster :

What is COVID-19 updated Bivalent vaccine? As of September 16, 2022 Bivalent COVID-19 vaccines are essentially updated booster shots—they will help to protect against variant strands of COVID-19 like Omicron.

When should the COVID-19 Bivalent boosters be administered? For individuals recommended to receive bivalent boosters (individuals 12 years of age and older), the booster should be received at least 2 months after completion of the primary series or at least 2 months after receipt of a monovalent booster dose (without regard to the number of previous monovalent booster doses.)

Please watch for a letter in the mail from the Pavilions regarding consent for the Bivalent booster. Hometown Pharmacy is currently able to order the approved COVID-19 booster for adults 50 years and older and for those that are immunocompromised. For residents to be considered “up to date” it will require this booster. Residents that are not up to date will need to quarantine for 7-10 days if out of the building for more than 24 hours, as well as after exposure once determined through contract tracing. If you would like to receive the Bivalent Booster, please complete and return the form by **11/4/22**.

As a reminder for the holiday activities please visit the link below for more information in our Fall Legacy Issue :
