

# WEEKLY FAMILY UPDATE

Grand Traverse Pavilions update for residents and responsible parties during COVID-19

VOL. 1, ISSUE 9

POSTED: 07.08.2020

- In response to the Michigan Department of Health and Human Services notification of the Governor's orders for all nursing homes to test their staff and residents for COVID-19 testing was completed on June 29th & 30th with results still pending as of today, July 08, 2020. As required we will notify residents, families and staff if there are any positive COVID tests. Notification will take place via the robo calling we have in place with additional details to follow on the weekly update.
- The Michigan START Map has changed our region of the State from low risk to medium risk which means will now be mandated to test our staff weekly. The next round of testing is being scheduled for early next week.
- We recognize that testing is the first step in the reopening process for nursing facilities. However, we continue to wait for next step recommendations from MDHHS.
- Visitor restrictions remain in place with some loosening up for those residents under hospice or end of life care.
- Residents are enjoying the enclosed courtyards as the weather permits. This is done on a schedule to maintain social distancing to the extent possible with staff supervision when indicated.
- As a reminder the Window Visit Policy is listed with the Weekly Family Updates on the website.
