

CORE PRINCIPLES

of COVID-19 Infection Prevention

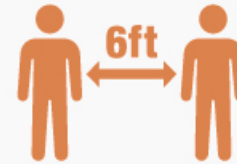

Complete your COVID-19 screening and temperature check.

Wash your hands and use alcohol-based hand sanitizer.

Wear your mask over your mouth and nose.

Social distance at least 6 feet between persons.

If you are not feeling well, please reschedule your visit.

Visitors who are positive for COVID-19, have symptoms of COVID-19, or currently meet the criteria for quarantine (such as having a COVID-19 exposure) should not enter the facility.

Visitors are to limit movement within the facility. Visitors may go from the entrance directly to the resident's room and when exiting, go directly from the room to the exit. Visitors are not to be walking around on the units or throughout the building.

The Core Principles of COVID-19 Infection Prevention are to be adhered to at all times.
